

PreAdmission Screening/Resident Review(PASRR) Level I Assessment (Form : DMA-613)

Please provide the required information for this PA request on this page. When you have completed entering the data for this PA request, select the Review Request link to view the information entered.

I understand that submission of this application is in accordance with Section 1919(b)(3)(f) of the Social Security Act, which requires that a Medicaid certified nursing facility can neither admit nor retain any individual with serious mental illness and/or intellectual disability unless a thorough evaluation indicates that such placement is appropriate and that services will be provided. The Level I screen is part of the Preadmission Screening/Resident Review (PASRR), and identifies whether an applicant to a nursing facility has indicators for mental illness, intellectual disability, developmental disability or a related condition. The nursing facility is not authorized to admit initial applicants without completion of this preadmission nursing facility policy procedure which includes physician certified completion of the DMA-6 for a level of care determination. Both the DMA-6 and the DMA-613
